Game 3

Red Rover

Grades: 4-6

Number of Players: As many as you want!

How to Play:

- At first, two teams are chosen of equal size, and they form two lines, facing each other and holding hands. The kids from the opposing lines attempt to "break through" the opposing team's line.
- One side starts by picking a person on the opposing team and saying "Red Rover, Red Rover, send Josh right over" Josh then lets go of his teammates and begins a run for the other line. His goal is to break through the line of the opposing team.
- If Josh breaks through, he chooses one person from the opposing team to join his team, and they both go back and join in their line. If he fails to break through, Josh becomes part of the other team.
- Each team alternates calling people over until one team has all the people and is declared the winner. Since, all the players are on the winning team at the end, there really are no losers in this game.

Safety Tips: Remind students to be careful when running through the opposing team's line.
